RUNNING ORDER

Shared drives (where both drivers are entered in the same class) the first driver will run early and the second driver will run at the end of the class in which they are entered. If time does not permit then the second driver will run as soon as possible under the instruction of the paddock marshals. Every effort will be made for the run to be taken within 20 cars of the first shared driver. This is the normal system to which the Clerk of the Course will work with in settled weather conditions. However, if a change in conditions looks likely, different instructions may be given. Also, if there is a hold up on the hill, shared cars will be asked to run immediately after the re-start.

N.B. It is important to nominate running order on shared drivers' entry forms by indicating which driver will go first. The second driver will display the numeral 7 or 9 before their number.
